ABOUT ME

I am a highly qualified and talented full-stack developer who creates visually attractive and user-friendly web applications.
I try to stay up to date with the latest web development technologies and am constantly looking for new ways to improve my skills.
I am a team player who is always ready to make every effort to ensure that projects are completed on time and in accordance with the highest standards.
I have technical abilities and a creative mindset, so I am a valuable asset for any development team.

WORK EXPERIENCE

[02/2020 – 08/2020]

Junior frontend developer

swedish organization (sw politic)

I was on the team developing a service for organizing meetings for politicians. I developed pages with simple functionality, made adaptive layout, fixed bugs.

[09/2020 – 09/2021]

Junior+ fullstack developer

swedish organization (sw youth political organization)

Developed an application to transfer the accumulated experience to a younger generation. An admin panel has been developed for creating/editing questions. The user (who is leaving the organization) had questions displayed and had to transfer his knowledge, after which a pdf file was generated and sent to the mail of the selected receiver.

[09/2021 – 02/2022]

Middle fullstack developer

through world

Developed an MVP application for ordering a tour around the world (analog booking.com) I was engaged in mentoring in the project, trained novice developers, delegated tasks

[02/2022 – 11/2022]

Middle fullstack developer

Tracker

Developed a web application for time tracking (admin panel and user part for viewing statistics), also implemented an application for Linux/Mac/Windows on electron.js

[11/2022 – Current]

Middle fullstack developer

NDA

Developing a medicine-related application

EDUCATION AND TRAINING

[2016 – 2020]
bachelor

Southern Federal University

Address: Taganrog, Russia

Field(s) of study: Radio engineering

Studied the theory of wave propagation in space, physics, electrodynamics, higher mathematics. They taught programming languages such as c/c++/c#, python, VHDL (xilinx).

[2020 – Current]
magistracy

Southern Federal University

Address: Taganrog, Russia

Field(s) of study: Software engineer

Studied algorithms, architectures, and data structures. Developed web and mobile applications, took courses in testing.

LANGUAGE SKILLS

Mother tongue(s): Russian

Other language(s):

English

LISTENING A2 **READING** B1 **WRITING** B1
